To: CD Comprehensive Development District (C8 Urban Village Commercial District and in accordance with the development plan entitled, “Mixed-Use Commercial and Residential Development – 4295 Hastings Street, Burnaby, BC” prepared by Chris Dikeakos Architects Inc.)

The purpose of the proposed zoning bylaw amendment is to permit the construction of a five-storey mixed-use development, with commercial/retail at grade, and residential uses above.

The Advisory Planning Commission advised it supports the rezoning application.

A letter dated 2015 January 25 was received from Katy Weston, and letters dated 2015 January 27 from Ian Mothersill, Fran and John Tanner, Lili Deng, Sunita Romeder, and Barbara Grant, #107, 108, 109, 112, 202, and 303-4272 Albert Street, Burnaby were received expressing concern regarding the rezoning application. The writers requested that a shadow study be conducted to minimize the loss of natural light to adjacent properties. In the absence of a shadow study, the writers requested the height of the proposed development be limited to four storeys along the back lane area.

Letters dated 2015 January 26 or 27 were received from Ronaye Matthew and Joyce Cameron, 102 and 402-4272 Albert Street, Burnaby expressing concern regarding the rezoning application. The writers requested that a shadow study be conducted and noted the importance of maintaining access to sunlight for the courtyards, gardens and solar panels in the Cranberry Commons multi-family development.

A letter dated 2015 January 26 was received from Allan Davison, 401-4272 Albert Street, Burnaby expressing concern regarding the rezoning application. The writer noted the importance of balancing the interests between residents in a liveable suburban home and businesses in the community.

A letter dated 2015 January 26 was received from Barbara Henn-Pander, 111-4272 Albert Street, Burnaby expressing concern regarding the rezoning application particularly in relation to the loss of sunlight in her backyard. The writer requested that consideration be given to terracing the proposed development to lessen the loss of sunlight. The writer also requested that consideration be given to enlivening the proposed pedestrian pass-through space.

A second letter dated 2015 January 25 was received from Ian Mothersill, 108-4272 Albert Street, Burnaby inquiring regarding plans to pave the laneway behind and reconstruct the sidewalk around the proposed development.

A letter dated 2015 January 27 was received from Marlene Leggatt, 101-4272 Albert Street, Burnaby expressing concern regarding the rezoning application particularly in relation to the height of the proposed building along the back lane, the impact of shadowing on the Cranberry Commons development and the increase in traffic in the lane.

Tim Bartoo, 110-4272 Albert Street, Burnaby appeared before Council expressing concern regarding the height of the proposed building and the impact of shadowing on the Cranberry Commons residential development.

In response to the speaker's comments, the Director Planning and Building noted the dimensional height of the proposed building complies with the current zoning. He also noted the shadow study indicated that during the growing season, shadowing should not negatively impact the Cranberry Commons community garden.

Sean Pander, 111-4272 Albert Street, Burnaby appeared before Council expressing concern regarding the height of the proposed development and the impact of shadowing on the Cranberry Commons development. The speaker noted if the height of the building is not restricted to four storeys, then the top floor of the building should be further setback from the lane to minimize shadowing impacts.

Ksenia Barton, 204-4272 Albert Street, Burnaby appeared before Council expressing concern regarding the rezoning application in relation to the need for additional commercial parking spaces, the shadowing impact of the proposed development on the Cranberry Commons residential complex particularly during the winter months, and traffic congestion and safety in the lane.

Barbara Henn-Pander, 111-4272 Albert Street, Burnaby appeared before Council to reiterate the concerns raised in her previously noted letter. The speaker supported the request of a previous speaker for the top floor of the proposed building to be setback further from the lane to minimize shadowing impacts on the Cranberry Commons development. Ms. Pander noted terracing the proposed building from the alley would lessen the “fish bowl” feeling of having people almost directly overhead when she is in her backyard.

Lili Deng, 112-4272 Albert Street, Burnaby appeared before Council expressing concern regarding the shadowing impact of the proposed building on the Cranberry Commons development including the community gardens.

There were no further submissions received regarding Rezoning #14-03, Bylaw No. 13432.

- Will affordable rental housing be incorporated into this development?
- When will a lighted pedestrian crossing be installed at the Dunblane Avenue/Imperial Street intersection?
- Is there new bicycle infrastructure improvement in the area?

The Director Planning and Building replied to the speaker's questions and noted the following points:

- The development will include pathways on the northern portion of the site for the enjoyment of property owners.
- On the south side of the development, a new lane will be constructed to connect Marlborough Avenue to Dunblane Avenue and that lane will be available for public passage.
- The site is currently occupied by sixty apartment units.
