*Reference:* 2015-37

**SUBJECT: CONTRACT AWARD 2015-37  
FRASER FORESHORE DYKING  
ENVIRONMENTAL COMPENSATION PROJECT**

**PURPOSE:** To obtain Council approval to award a construction contract for the Fraser Foreshore Dyking Environmental Compensation project.

---

**RECOMMENDATION:**

1. **THAT** Council approve a contract award to Sumas Remediation Services Inc. for a total cost of \$293,216.18 including GST in the amount of \$13,962.68 as outlined in this report. Final payment will be based on the actual quantity of goods and services delivered and unit prices as tendered.

**REPORT**

Seven tenders for this contract ranging from \$293,216.18 to \$867,342.00 were received by the closing time on 2015 September 17. The work of this contract involves compensation works along the lower reaches of Glen-Lyon Creek, immediately downstream of Marine Way. The design involves the transformation of the existing creek to a meandering system with channel enhancement features to provide overwintering habitat for salmonids. The compensation plan involves the construction of a variety of instream fish habitat enhancements on Glen-Lyon Creek.

The recommended lowest bidder, Sumas Remediation Services Inc., has completed several contracts to the satisfaction of the City. Our consultant's review indicates that the contractor has the equipment and personnel to successfully complete the work required under this contract. The Director Engineering concurs with this recommendation.

This project is partially funded through the Build Canada Fund – Flood Protection as described in the Council Report from 2012 April 02. The City must provide interim funding for the total expenditure until payments are received from the Ministry. Funding for this requirement is included in the 2015 – 2019 Financial Plan under WBS element: ELD.0009 (\$279,300). These expenditures are included in the storm sewer component of the 2015 Annual Financial Plan.
