**Subject:** Urgent Need for Effective Protection of the Fraser Estuary and Eliminate the Conflict of Interest with PMV

**Email letter to:**

**Rt. Hon. Justin Trudeau - Prime Minister of Canada**  
**Minister of Fisheries and Oceans J. Tootoo**  
**Minister of Transport M. Garneau**  
**Minister of Environment C. McKenna**

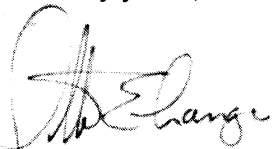

**Minister of Sport and Disabilities Carla Qualtrough**  
**Minister of Science K. Duncan**  
**MP J. Peschisolido**  
**MP J. Murray**  
**Local Fraser River Mayors and City Councils**

**March 15, 2016**

*On November 17, 2015 I sent a letter to the key responsible government Cabinet Ministers and fellow MPs about the urgent need to better protect the Fraser River estuary (**attached**)\*. To date I have not received any response on this matter. As in the past decade our environment cannot be compromised by faulty environmental assessments and poorly located industrial projects such as that exhibited by Port Metro Vancouver and the Province of BC approval of jet fuel tankers, terminal and tank farm in the heart of the Fraser River Estuary.*

*Accordingly as requested by some local MPs I am submitting a more complete list of projects (**attached**)\* that are a threat to this globally significant river and its estuary. I have also included a **recommended action plan** to resolve the issues that were created over the past decade that have put the Lower Fraser River and estuary into a environmental downhill slide.*

*Sincerely yours,*

Otto E. Langer MSc  
Fisheries Biologist
