Dear Mayor and Council

On February 9th, Burnaby Food First presented a research report to the Environment Committee of the City of Burnaby. The report, entitled "Local Food Security - Turning Policy into Action in Metro Vancouver", had not yet been completed. We are happy to inform the Mayor and Council that the report is now complete and attached here for your information.*

The purpose of the report was to provide information on the various approaches to food security. As the final sentence in the report says, Since the adoption of the Regional Food System Strategy in 2011, several of the municipalities in this study have made significant progress, and all can learn from each other's best practices.

Burnaby Food First looks forward to continued collaboration with the City of Burnaby.

Respectfully yours, Leona Skovgaard, Chair, Burnaby Food First
