The work will consist primarily of the supply and installation of various machine laid mix asphaltic concrete courses, asphaltic milling, replacement of curb and gutters, replacement of concrete flatwork and installation of perforated drain pipe.

The lowest tenderer, Winvan Paving Ltd., has completed previous projects under contract to the satisfaction of the City. Our consultant's review indicates the contractor has the equipment and personnel capability to successfully complete the work required under this contract. The Director Engineering concurs with the above recommendation.

Funding has been provided for this capital work within the 2016 – 2020 Annual Financial Plan under the following WBS elements: EMC.0010 (\$1,561,600) and EKA.0014 (\$171,000).
