

COUNCIL REPORT

**TO:** CITY MANAGER

2016 April 20

- **FROM:** DIRECTOR PLANNING AND BUILDING
- SUBJECT: REZONING REFERENCE #15-30 HIGH RISE APARTMENT TOWER WITH STREET-ORIENTED TOWNHOUSES BRENTWOOD TOWN CENTRE PLAN
- ADDRESS: 2242 Alpha Avenue (see *attached* Sketches #1 and #2)
- LEGAL: Lot 21, DL 124, Group 1, NWD Plan 3343
- **FROM:** M2 General Industrial District
- **TO:** CD Comprehensive Development District (based on the RM4s Multiple Family Residential District and Brentwood Town Centre Development Plan as guidelines, and in accordance with the development plan entitled "2242 Alpha Avenue" prepared by CDA Architects)
- APPLICANT: Chris Dikeakos Architects Inc. 212 – 3989 Henning Drive Burnaby, BC V5C 6N5 (Attn: Richard Bernstein)
- **PURPOSE:** To seek Council authorization to forward this application to a Public Hearing on 2016 May 31.

## **RECOMMENDATIONS**:

- 1. **THAT** a Rezoning Bylaw be prepared and advanced to First Reading on 2016 May 09 and to a Public Hearing on 2016 May 31 at 7:00 p.m.
- 3. **THAT** the following be established as prerequisites to the completion of the rezoning:
  - a. The submission of a suitable plan of development.
  - b. The deposit of sufficient monies, including a 4% Engineering Inspection Fee, to cover the costs of all services necessary to serve the site and the completion of a servicing agreement covering all requisite services. All services are to be designed to City standards and constructed in accordance with the Engineering Design. One of the conditions for the release of occupancy permits will be the completion of all requisite services.

- c. The installation of all electrical, telephone and cable servicing, and all other wiring underground throughout the development, and to the point of connection to the existing service where sufficient facilities are available to serve the development.
- d. The submission of an Undertaking to remove all improvements prior to Final Adoption of the Bylaw, but not prior to Third Reading of the Bylaw. Demolition of any improvements will be permitted after Second Reading of the Rezoning Bylaw has been granted provided that the applicant acknowledges that such permission does not fetter Council's ability to grant or not to grant Third Reading and/or Final Adoption of the Rezoning Bylaw. In addition, the demolition of any improvements will be permitted at any time if they are vacant and considered by staff to be subject to misuse and vandalism. If requested, demolition may be delayed to more closely coincide with approval of building permits.
- e. The utilization of an amenity bonus through the provision of a cash in-lieu contribution in accordance with Section 3.4 of this report.
- f. The granting of any necessary Covenants, including, but not necessarily limited to, Section 219 Covenants:
  - restricting enclosure of balconies;
  - guaranteeing the provision and maintenance of public art;
  - indicating that project surface driveway accesses will not be restricted by gates;
  - guaranteeing the continued operation and maintenance of stormwater management facilities;
  - ensuring the site can be used safely in accordance with the approved geotechnical report;
  - ensuring that the project does not draw down the water table;
  - providing that all disabled parking to remain as common property; and,
  - ensuring compliance with the submitted acoustical analysis.
- g. The execution of an indemnity agreement by the developer saving the City harmless from all liability associated with this development in relation to its geotechnical and hydrological (including any potential contaminated groundwater) impacts to surrounding infrastructure and other nearby development.
- h. The approval of the Ministry of Transportation to the rezoning application.

To: City Manager

From: Director Planning and Building

*Re:* REZONING REFERENCE #15-30

High rise apartment tower with street-oriented townhouses

2016 April 20 ..... Page 3

- i. The design and provision of units adaptable to persons with disabilities with allocated handicap parking spaces protected by a Section 219 Covenant.
- j. The undergrounding of existing overhead wiring abutting the site.
- k. Compliance with the Council-adopted sound criteria.
- 1. Submission of a Site Profile and resolution of any arising requirements.
- m. The provision of covered car wash stalls and adequately sized and appropriately located garbage handling and recycling material holding space and a commitment to implement the recycling provisions.
- n. The submission of a suitable Solid Waste and Recycling Plan to the approval of the Director Engineering.
- o. The review of on-site residential loading facilities by the Director Engineering.
- p. The provision of facilities for cyclists in accordance with this report.
- q. The review of a detailed Sediment Control System by the Director Engineering.
- r. Compliance with the guidelines for underground parking for visitors.
- s. The submission of a suitable on-site stormwater management system to the approval of the Director Engineering, the deposit of sufficient monies for its provision, and the granting of a Section 219 Covenant to guarantee its provision and continuing operation.
- t. The deposit of the applicable Parkland Acquisition Charge.
- u. The deposit of the applicable GVS & DD Sewerage Charge.
- v. The deposit of the applicable School Site Acquisition Charge.
- w. The submission of a written undertaking to distribute area plan notification forms, prepared by the City, with disclosure statements; and, to post area plan notification signs, also prepared by the City, on the development site and in the sales office in prominent and visible locations prior to Third Reading, or at the time marketing for the subject development commences, whichever is first, and remain posted for a period of one year, or until such time that all units are sold, whichever is greater.

# **REPORT**

#### **1.0 REZONING PURPOSE**

The purpose of the proposed rezoning bylaw amendment is to permit construction of a 23-storey residential apartment building with ground oriented townhouses and underground and above grade structured parking.

## 2.0 BACKGROUND

- 2.1 On 2015 September 28, Council received the report of the Planning and Building Department regarding the rezoning of the subject site, and authorized the Department to continue to work with the applicant in the preparation of a suitable plan of development with the understanding that a further and more detailed report would be submitted at a later date.
- 2.2 The subject site is comprised of one lot, which is currently occupied by an older industrial building. Directly to the north and east are older industrial buildings with Dawson Street and Beta Avenue beyond. To the west across Alpha Avenue are older industrial buildings with Willingdon Avenue beyond. Directly to the south is a vacant, site proposed for a high-rise residential building with podium level townhouse / work live units under Rezoning Reference #14-11, with older industrial buildings and the BNSF Rail Line beyond. Vehicular access to the site is from Alpha Avenue.
- 2.3 The Brentwood Town Centre Development Plan designates the subject site for highdensity multiple-family development based on the RM4s Multiple Family Residential District as a guideline. In accordance with the Council-adopted policy regarding application of 's' category zoning, the development is subject to there being significant community benefits, a sustainable redevelopment approach, exceptional public realm improvements, a high quality urban design and superior architectural expression. This site is also considered suitable for the proposed development given its strategic location in relation to the Millennium SkyTrain line and the nearby Brentwood SkyTrain station.

In terms of the governing allowable density for the site, the maximum allowable floor area ratio would be 3.6 FAR applicable to the net site; this is inclusive of an available 1.1 FAR amenity bonus.

2.4 Burnaby has and continues to benefit from some very sound planning principles established early on in the City's development. Key to these is the Official Community Plan's designation of four Town Centres areas within the City which have and are intended to continue to accommodate a significant portion of the City's population and job growth, and which provide locations for the provision of community amenities going forward.

 Re:
 REZONING REFERENCE #15-30

 High rise apartment tower with street-oriented townhouses

 2016 April 20
 Page 5

The creation of Town Centres at Metrotown, Brentwood, Edmonds and Lougheed have served the City well in protecting single- and two-family residential neighbourhoods from pressures to accommodate new growth, and have also allowed the City to preserve a significant component of its land base for park and open space. At the same time, they contribute to Regional Planning objectives, established by Metro Vancouver in the Regional Growth Strategy, that are of benefit both locally and more broadly. Within Burnaby, and other neighbouring cities, Town Centres are helping to meet regional goals to reduce pressures for development of habitat and agricultural lands, to focus jobs, people and services in walkable neighbourhoods that are and can be efficiently served by transit, and to reduce overall demands for travel by car with direct benefits to the environment, economy and the quality of life in the Region.

Further, Burnaby's Economic Development and Social Sustainability Strategies, in addition to the Town Centre Plan, encourage: a varied range of housing options (including ground orientation); improved neighborhood livability, stability and accessibility; transit access and alternative forms of transportation; as well as green building policies. The subject rezoning application is consistent with these regional and municipal plans and policies.

2.5 The applicant has now submitted a plan of development suitable for presentation to a Public Hearing.

## 3.0 GENERAL COMMENTS

3.1 The proposed development concept is for a single 23-storey apartment tower above structured parking with ground oriented townhousing fronting Alpha Avenue. The development form provides a strong street-oriented relationship to Alpha Avenue, as well as a strong contextual relationship to surrounding, existing and planned development.

A total of 160 apartment units (20% of which are adaptable units) and including 4 townhouse units are proposed. Parking is proposed to be located partially underground (1 level), but mostly within an above ground structure (2 levels). Overall, the subject proposal exemplifies exceptional urban design and architectural expression related to the building's siting, massing, pedestrian orientation and materiality; meeting the standard expectation for 's' Category development in the City's Town Centre areas. The townhouses engage the adjacent street and their public realm through individual unit accesses on the ground level, extensive glazing and use of masonry cladding and articulated rooflines, all of which also adds interest to the streetscape.

To complement the built form, a progressive landscape treatment is proposed for the amenity podium roof deck, front and side yards and bounding street, including broad separated sidewalks on Alpha Avenue, complete with Rainwater Management Amenities (RMAs) within curb bulges to help soften the urban environment. Substantial on-site landscaping is also proposed including treed patio frontages, an outdoor amenity area for

 2016 April 20
 Page 6

leisure and children's play area. A significant public art piece will be provided along the Alpha Avenue frontage, acting as a strong visual reference to the proposed development.

3.2 All required parking is proposed to be located either underground or within a structure, with access taken from Alpha Avenue. The development proposal meets the minimum required Burnaby Zoning Bylaw parking ratio of 1.1 spaces per unit (of which 0.1 spaces is for visitors). To meet the proposed parking standard the developer has also provided transportation alternatives. First, given the subject site's proximity to the Brentwood SkyTrain Station, as well as other transit routes operating in the vicinity of the development, the development is providing transit passes (two zones) for two years to 15% of residents as an alternative to car use and ownership. Second, the development is providing 21 individually metered (Level 2 AC) Electric Vehicle charging stations, of which 2 are to be provided within the visitors' parking area for the benefit of the residents and their visitors, and 19 are to be provided in the residents parking area as part of the required parking. A Section 219 Covenant will be required to guarantee the provision and continued maintenance and operation of the 21 electric vehicle car charging stations to be held as common property for the benefit of all residents and their visitors (including all necessary wiring, electrical transformer and mechanical ventilation modifications). Third, the development is providing twice the required secured bicycle parking, a 2 station bicycle repair/maintenance area and bike trailer storage area. Finally, the developer will provide 2 co-op cars (provider to be determined), including required parking, plus an initial annual car share membership fee for each unit.

The applicant has submitted a Transportation Study to support the proposed development.

- 3.3 The developer has agreed to pursue green building practices by committing to achieve a Silver rating under the Leadership in Energy and Environmental Design (LEED) program or equivalent.
- 3.4 Given the site's Town Centre location, the applicant is proposing to utilize the allowable supplemental density provisions indicated within the Zoning Bylaw. In so doing, the applicant would achieve an additional 1.1 FAR in amenity bonus, which translates into 45,947 sq.ft. of bonused gross floor area (GFA) included in the development proposal. The Legal and Lands Department has initiated discussion with the applicant on the amenity bonus value. A separate report detailing the value of the density bonus will be forwarded to Council for consideration and approval prior to the subject amendment bylaw receiving Third Reading. Council approval of the density bonus value is a prerequisite condition of the rezoning.

Under the Priority Amenity Program, the community benefit funds received will be directed into the Brentwood Town Centre Account to be utilized in the future to achieve priority amenities, as established by Council, including a new Brentwood Community Centre and a new linear public park and walkway along Willingdon Avenue, from Brentwood Mall to Hastings Street.

*Re:* REZONING REFERENCE #15-30

High rise apartment tower with street-oriented townhouses

2016 April 20 ...... Page 7

In accordance with Council's adopted policy, 80% of the cash-in-lieu contributions are applied toward the appropriate Town Centre Financial Account and 20% to the City-wide Housing Fund.

- 3.5 The Director Engineering will be requested to prepare an estimate for all services necessary to serve this site. The servicing requirements will include, but not necessarily be limited to:
  - construction of Alpha Avenue frontage to its final standard with concrete curb and gutter, separated sidewalks, street trees, enhanced boulevards, street and pedestrian lighting across the development frontage;
  - undergrounding of overhead lines across the development frontage on Alpha Avenue;
  - a proportionate contribution towards the proposed Beta Avenue pedestrian and cycling overpass to Still Creek Drive; and,
  - storm, sanitary sewer and water main upgrades as required.
- 3.6 In accordance with the City's policy for adaptable units, a total of 35 units (20% of the total number of apartment units) have been provided meeting adaptable housing standards. As permitted under the adopted policy, 20 sq.ft. for each adaptable unit is exempt from FAR, resulting in a total adaptable unit FAR exemption of 700 sq.ft. As required by the Burnaby Zoning Bylaw and BC Building Code, two accessible parking stalls are to be provided (one handicap stall per 100 stalls). Accessible parking stalls will be protected by a Section 219 Covenant as common property to be administered by the Strata Corporation.
- 3.7 It is intended that the overall project would accommodate a broader spectrum of housing needs. To support this, the one bedroom unit sizes are generally based on the Zoning Bylaw minimum unit sizes for such dwellings in the P11e District (SFU), which requires a minimum area of  $50m^2$  (538.21 sq.ft.). Smaller one bedroom units are intended to provide a level of affordability for new home ownership, providing access to the market for first time home buyers. To offset the number of smaller one bedroom units, a commensurate increase in larger two bedroom and den, and three bedroom units is proposed.
- 3.8 Any necessary easements and covenants for the site are to be provided, including, but not necessarily limited to:
  - Section 219 Covenant restricting enclosure of balconies;
  - Section 219 Covenant guaranteeing the provision and maintenance of public art;
  - Section 219 Covenant guaranteeing the provision and ongoing maintenance of stormwater management facilities;
  - Section 219 Covenant ensuring compliance with the approved acoustical study;

From: Director Planning and Building

*Re:* REZONING REFERENCE #15-30

*High rise apartment tower with street-oriented townhouses* 2016 April 20 ...... Page 8

- Section 219 Covenant ensuring the achievement of a green building design with a Leadership in Energy and Environmental Design (LEED) Silver rating (mid-rise) or equivalent;
- Section 219 Covenant ensuring the provision and ongoing maintenance of 21 (Level 2 40 amp) Electric Vehicle charging stations (including all necessary wiring, electrical transformer and mechanical ventilation modifications);
- Section 219 Covenant ensuring the provision of a minimum of 2 handicap accessible parking stalls in the resident parking area for the sole use of the required 35 accessible units, and that these stalls, as well as any other handicap accessible parking provided in the residential component of the underground parking, be held in common property to be administered by the Strata Corporation;
- Section 219 Covenant ensuring that the site can be used safely in accordance with the approved geotechnical study; and,
- Section 219 Covenant ensuring that the water table will not be drawn down during and after development.
- 3.9 Due to the proximity of the subject site to the BNSF Rail line, the applicant is required to provide an acoustical study showing that the proposed development would meet the Council-adopted noise criteria.
- 3.10 As underground parking is requested for a site with known geotechnical and hydrological conditions, as well as the potential for groundwater contamination in the area, and given the site's proximity to civic and other major infrastructure, an indemnification agreement with the owner/developer will be required to hold the City harmless in the approval of the subject rezoning and all other subsequent permits.
- 3.11 As the site will be fully excavated for development, a tree survey will be required prior to Final Adoption identifying trees to be removed from the site. The applicant will be required to obtain a tree removal permit for all trees over 20 cm (8 inches) in diameter. A detailed landscape and tree planting plan has been provided as part of the suitable plan of development to replace existing trees to be removed from the site.
- 3.12 Provision of an adequately sized and sited garbage handling and recycling material holding space, as well, separate car wash stalls are required.
- 3.13 Provision of one residential loading space is required in conjunction with this application.
- 3.14 The developer is responsible for the undergrounding of the overhead wiring abutting the site on Alpha Avenue.

To: City Manager

From: Director Planning and Building

*Re:* REZONING REFERENCE #15-30

High rise apartment tower with street-oriented townhouses

2016 April 20 ..... Page 9

- 3.15 A suitable engineered design to the approval of the Director Engineering will be required for the on-site stormwater management system as well as a Section 219 Covenant to guarantee its provision and continuing operation. The deposit of sufficient monies to guarantee the provision of the stormwater drainage and landscape features will be required.
- 3.16 Engineering Environmental Services Division will need to review a submission of a detailed plan of an engineered Sediment Control System prior to Final Adoption.
- 3.17 The submission of a suitable Solid Waste and Recycling Plan to the approval of the Director Engineering is required.
- 3.18 Bicycle storage space and surface parking racks are to be provided for the residential tenants, and visitors of the development.
- 3.19 A site profile application is required for the subject development site, given its past industrial use.
- 3.20 a) Parkland Acquisition Charge of \$3.55 per sq.ft. of residential gross floor area
  - b) School Site Acquisition Charge of \$600.00 per unit
  - c) GVS&DD Sewerage Charge of \$590.00 per apartment unit

## 4.6 <u>Communal Facilities</u>

(Excluded from FAR Calculations)

Primary communal facilities for residential units are located within the podium levels of the residential tower fronting Alpha Avenue, including an amenity lobby and lounge, and fitness room. The amenity area amounts to  $418.62 \text{ m}^2$  (4,506 sq.ft.), which is less than the permitted 5% (7,460.8 sq.ft.) exemption from Gross Floor Area permitted within the Zoning Bylaw. The applicant has also provided an expansive landscaped podium deck, including a children's play area, barbeque area, seating, and garden plots. At ground level are various landscape elements located throughout the site, as well as a signature public art installation to be located on the Alpha Avenue frontage.

Lou Pelletier, Director PLANNING AND BUILDING
