**Subject:** Rezoning #17-05 Beresford Street

Rez Ref # 17-05  
Bylaw # 13767

Hello, Sir/Madam

I reside in 6461 Telford avenue which is next to the proposed rezoning area. It has been a long time since the metrotown sky train station under construction. There is currently another developer building two blocks away. For two years since I moved in, the construction seems never stopped. After rezoning I believe the noise will last for longer. Our road is not broad but as more and more people moving in new high rise, I would see the traffic will get more busy. My bedroom window is facing the direction where this rezoning area. Once the new high rise building is built, I will never feel comfortable opening my shades of the bedroom, as it would be close to the next building and less privacy will be given to the other residents like me in my current apartment.

I sincerely hope the rezoning is not passed. This is my personal thought. thanks for your time reading this.

Thanks,  
Jingyi Zhu
