**Subject:** Public Hearing - Rezoning#16-52

Dear Sir/Madam,

We, as small business owner in Loughheed Town Center, are keeping watching the process of the rezoning of this Mall. We are always concerning about how much big impact it could be after construction starts.

At present, even before the construction is started, this Mall's traffic is slowing down. Daily customer number has lost almost 100 per day. and sales has had 2-digit drop comparing to last year. Many customers are asking us if current retailers will keep there open after construction starts. We are facing very difficult time.

We always support Mall development plan and believe the future will be very beautiful. We sincerely hope that Landlord can minimize impact during construction and access to Mall on Austin Road can keep open. In the meantime, loading zone should be operating as normal on daily basis. Also there needs to have enough customer parking on east side of the Mall. Surrounding areas should be well managed and should be kept clean and safe.

Thank you for your understand and support.

Bill Zhang  
Kin's Farm Market of Loughheed Town Center
