Comment	<p>I wonder whats happening with your police department ??? How is it possible that a man could be knocked down inside a Starbucks coffee shop, causing his death and "nothing" is being reported to the public via the news-media... How is this possible??? What about witnesses inside the coffee shop and/or the car license plate number of the couple, who caused the death of Page-Vincelli on July 13th. The perpetrator is obviously somewhat of a dangerous type of person and nothing is even reported by the police. What kind of department does the police operate in Burnaby??? Shameful is not an exaggerated word to use...</p>
