

District 4 Community Policing Advisory Committee Report, October, 2017

There was not a report from the Community Police Office Supervisor nor the District 4 RCMP. One community member was concerned with waiting on line for 16 minutes with the non-emergency line to report their concern.

Volunteers participated with the RCMP members at the Metrotown Skytrain station distributing pedestrian reflectors as part of the ICBC education campaign for October. The reflectors were well received and pedestrians were reminded to be seen at night, take care when crossing the street and remove ear buds for better pedestrian safety .

Station Square and Metrotown Security Managers outlined their security roles. They are not involved in loss prevention unless they have witnessed the act and have observed the entire event. Security members focus is the parking lots and the common areas in the mall outside the vendors premises. The security managers continue to network with each other, alerting each other about possible problem individuals and current trends
