Mayor and City Council
City of Burnaby

Dear Mayor and City Council:

Please find the attached letter from my 9 year old daughter outlining the hazards at the intersection of Gilley and Imperial.

This four-way intersection is very busy to traffic and is heavily used by kids from two elementary schools in the vicinity. I have witnessed a number of near misses of kids almost getting hit by cars. I've even witnessed two kids actually getting hit, but thankfully with no injuries.

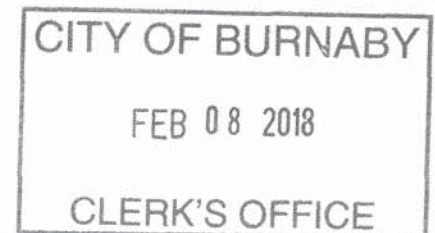

We are wondering if the City could look into safety measures to enhance the safety at this intersection especially for kids walking to and from school.

Sincerely,

Kathy Woo

To: Your Worship
(Mayor Corrigan)
From: Katelyn Woo
(Age: 9)

Dear Your Worship (Mayor Corrigan),

Could you please put a traffic light at the four way stop at Gilley and Imperial St. please? I would like to have a traffic light there because I use that crosswalk to go to school and go home. Many times my mom, little brother and me almost got hit by a car. One time a car came so close that it hit my backpack! My neighbour was hit by a car at that crosswalk, too. We've seen many Windsor students almost get hit. My Mom had to save many kids from getting hit by a car while crossing that crosswalk so many times. Now I get very nervous using that crosswalk everyday and I am very afraid of walking to and from school. So could I please ask you to help us kids get to and from school safely? I don't want to feel anxious every-time I have to walk to school. Thank you Your Worship (Mayor Corrigan). I really appreciate you reading my letter.

Sincerely,
Katelyn Woo
