Office Of The City Clerk
Burnaby City Hall
4949 Canada Way
Burnaby, BC
V5G 1M2

Honorable Mayor and Counsellors:

I am a long-time Burnaby Resident and current environmental activist who has resided at 94 Sea Avenue, North for more than thirty years. My environmental activism was kicked into gear with the 2014 Kinder Morgan bore-hole drilling in the conservation area on Burnaby Mountain. Through my activism, I have come into contact with a number of individuals and groups that are actively opposing the Kinder Morgan pipeline expansion project.

Two of my fellow activists: Gordon Cornwall (retired software company owner and resident of North Vancouver) and Yvon Raoul (retired high school teacher and resident of Vancouver) and I would like to address Burnaby City Council on the topic of the Kinder Morgan expansion project.

Our goal is to have Burnaby City Council urge the Provincial Government to enact legislation to define legal consequences associated with climate change costs and impacts and ensure that fossil fuel companies pay a fair share of the costs.

As Mr. Cornwall has undertaken considerable research into the topic, we would like him to be the primary speaker.

~~Yours sincerely~~

Larry Myers
