SUBJECT: CONTRACT AWARD
SUPPLY OF LED STREETLIGHT LUMINAIRES PHASE 4

PURPOSE: To obtain Council approval to award two contracts for the supply of LED streetlight luminaires.

RECOMMENDATION:

1. **THAT** Council approve contract awards to LED Roadway Lighting Ltd. and EECOL Electric Corporation for a total estimated cost of \$807,785.36 including GST and PST in the amount of \$86,548.43 as outlined in this report. Final pricing will be based on actual quantities purchased.

REPORT

The City is currently working on a four phase program to replace all City-owned streetlights with LED luminaires. The LED luminaires will reduce energy use, maintenance costs, and provide a higher quality (white) light. Phases 1, 2 and 3 of the program, covering three quarters of the City, are now complete. Phase 4 covering the northeast quadrant is planned for completion in 2018 and this report is to obtain the required LED luminaires for Phase 4.

Two companies have been selected through the Corporate Supply Arrangement (CSA) with the Provincial government under the “LED Street Lights Across B.C. Program” to supply the LED streetlight luminaires. It is recommended that LED Roadway Lighting Ltd. and EECOL Electric Corporation be awarded contracts for the supply of LED streetlights for a total estimated amount of \$807,785.36 including taxes. These two companies provided supplies for the first three phases of the LED Streetlight Luminaires Project to the satisfaction of the City. The prequalification process and reference checks have been completed under the Province’s CSA. The Director Engineering concurs with this recommendation.

Funding has been provided for this capital work within the 2018 – 2022 Annual Financial Plan under the following WBS element: EMH.0020 (\$771,800).
