Subject: Possible traffic slow & stop signs

Good afternoon City Council,

Just wonder whether it's possible to consider installing traffic slow and stop signs before and on the intersection of Kingsway and Smith ave, by the Central Park. I walk to and from work everyday along the Kingsway; it'd been several times I was almost knocked down by high-speed travelling vehicles turning right to the Smith ave. from the Kingsway, because there are no either slow or stop signs to warn vechels passing pedestrians. I believe this scary experience also happen to other peoples.

Thank you for making Burnaby a safe, pleasant city to live.

Regards,

Ning Cheng
