

Office of The Mayor of the City of Burnaby

PROCLAMATION

PULMONARY HYPERTENSION MONTH

WHEREAS Pulmonary hypertension, or PH, is a disease affecting the arteries of the lungs. It can strike anyone regardless of age, sex, social, or ethnic background; and

WHEREAS Pulmonary hypertension refers to high blood pressure in the lungs which causes the arteries of the lungs to become narrowed and scarred. This can result in almost complete closing of the arteries. People affected by this disease suffer from continuous high blood pressure in the lungs, resulting in enlargement of the right heart, and can lead to heart failure and death; and

WHEREAS Some symptoms of pulmonary hypertension are: shortness of breath, bluish or purplish lips, swelling of hands and feet, light headedness/dizziness, especially when climbing stairs or standing up, chest pain, a feeling of being tired all the time, and sometimes even fainting; and

WHEREAS The somewhat "generic" symptoms often get mistaken for other less serious illnesses or conditions resulting in patients experiencing significant delays in diagnosis and in receiving lifesaving treatments.

**NOW THEREFORE I, DEREK CORRIGAN, MAYOR OF BURNABY,
DO HEREBY PROCLAIM NOVEMBER AS**

"PULMONARY HYPERTENSION MONTH"

IN THE CITY OF BURNABY.
