Petition:

Hello, many of us cross illegally at Byrne Road and Market Crossing to get to the shops and restaurants each day

As you know the only way across from this complex is to J walk unless you walk up to the main lights which means loosing time on your lunch break and doubling back, J walking means you can potentially be smoked by a truck...not cool.

That said I have created this petition to send to the City of Burnaby to accompany a proposal to the Council and Mayor to have a simple pedestrian crosswalk installed at Byrne and Market Crossing to ensure our safety and having Market Crossing really be a "Market Crossing".

Kindly sign the petition!

Steph
