Subject: Attn: Public Safety Committee - Cr P. Calendino, Chair

We, the community members of Brentlawn Drive, are pleased to submit the attached signed petition forms* to the Chair of the Burnaby Public Safety Committee, Cr. Pietro Calendino, on behalf our our neighbours and fellow residents of Brentlawn Drive who together oppose any move by council and staff to change any parking regulations on Brentlawn drive.

We eagerly await confirmation of receipt of these petitions and assure the committee that we are collecting more which will be forwarded promptly.

We are also very eager to engage in actual, substantial initiatives by the committee, council and staff to make our street safer from the real danger which is through traffic and not parking at all. In fact, we trust that the committee, council and staff will recognize that the only thing keeping our street from becoming an alternative highway to Lougheed are the parked cars.

We look forward to the committee, council and staff finding actual, substantial traffic calming solutions for our street in respect of the city's own Burnaby Transportation Plan, the public consultation phase of which these petitions may be taken to be a contribution.

Respectfully submitted for the residents of Brentlawn Drive
