Hi there,

Just want to modify the topic of our presentation next week to the following:

Parks and Public Spaces - discussion on dog park and green and public spaces available at UniverCity (same topic as previous)

Adding:

Light Pollution due to Building Design - discussion on Parcel 18 The Peak, currently under construction. Design of lighting causing light pollution. Would like to inform council of our concern and approval for designs for future developments.

Concerns and Suggestions from Burnaby Residents at UniverCity (Burnaby Mountain)
