Subject: **Declare climate emergency**

Dear Mayor and Council of Burnaby,
Given the disappointing election results in Alberta, now is the time for Burnaby to join its neighbors in Vancouver in declaring a state of emergency over climate change, and to renew its opposition to expansion of the Trans-Mountain Pipeline. There can be no compromise with evil politicians like Jason Kenney, who will not rest until they warm our planet past the point of no return.

A concerned citizen,
Narayan Gopinathan
