- A Thriving Organization
 - Reliable services, technology and information –
Protect the integrity and security of City information, services and assets.

1.0 Kensington Park Arena – ENX.0100 \$1,200,000

Early construction funding approval is requested for the Kensington Park Arena ice plant and electrical equipment replacement projects. The construction funding for these projects are contained within year 2020 of the 2019 - 2023 Financial Plan. The 2019 design funds were previously approved through bylaw funding in 2019 February. The designs have progressed to tendering stage. Construction funding approval is required at this time to accommodate the long lead time requirements for the specialty equipment and to match the summer construction schedule.

This early approval will allow the ice plant and electrical replacements to be completed in time for the 2020 ice season. The existing ice plant and electrical equipment are at the end of service life and require replacement to maintain reliable and safe operations without disruption to the facility users.

These expenditures are included in the 2019 – 2023 Financial Plan and sufficient Capital Reserve Funds are available to finance the capital project outlined in this report.

RECOMMENDATION

It is recommended that the Financial Management Committee recommend Council authorize the City Solicitor to bring forward a Capital Reserves Fund Bylaw in the amount of \$1,200,000 to finance the Engineering capital Facilities Management improvement project.
