Subject: Pages 6 and 9 report on New Burnaby Transportation Plan phase 2

Dear Clerk;
Could you please give my comments to P&D Cttee

Page 6

6.1 2. Mode Split 3. ZE

These targets depends on prov targets thru CleanBC.

I know that other cities have better targets.

One way is to move all targets by at least five years so they are 2025 2035 2045. But if we move very fast we might be able to combine both the 2040 and 2050 dates into a single date of 2035 or 2037.

19. Work with TransLink ...

Comments; TransLink does not do everything and best to omit the name or Change to read " Prov Govt/TransLink/Metro Vancouver Regional District/adjacent cities"
same comment for no.24

Yours truly
