

District 2 Public Safety Committee Report - April to June 2020  
Prepared by Aki Ediriweera, Chair

Businesses have been gradually opening in the community. Further, the businesses in the area are very grateful for the support from the RCMP.

Drivers have been making dangerous U-turns in the intersection of Norland Ave and Sprott Street in an attempt to get on the highway.

The pedestrian sidewalk on Douglas Rd between Regent Ave and Norland Ave has been removed amongst the recent construction in the area. This is challenging for pedestrians as the opposite direction of Douglas Road does not have a proper sidewalk as well.
