The work includes construction of 2,600 lineal meters of concrete curbs and sidewalks, adjusting 75 existing manholes, installation of lawn and catch basins, street lighting, mainline and sub-drain installation, 20,500 square meters of subgrade preparation, excavation and disposal of materials off-site, asphalt paving, and road rehabilitation.

The lowest tenderer, Eurovia British Columbia Incorporated, has completed previous projects under contract to the satisfaction of the City. Review by City staff and our consultant indicates the contractor has the necessary equipment and personnel to successfully complete the work required under this contract. The Director Engineering concurs with the above recommendation.

Funding for this capital work is included in the 2021 – 2025 Provisional Financial Plan under WBS element EMC.3189 (\$2,557,000).
