COUNCIL REPORT

**TO:** CHIEF ADMINISTRATIVE OFFICER                      **DATE:** 2021 September 14

**FROM:** DIRECTOR PLANNING AND BUILDING              **FILE:** 7000 04  
*Reference: Review of App Fees*

**SUBJECT:** 2022 FEES FOR PLANNING AND BUILDING PERMITS, APPLICATIONS  
AND OTHER SERVICES

**PURPOSE:** To provide Council with recommendations for the Planning and Building  
Department's 2022 fees for various applications for cost recovery purposes.

**RECOMMENDATIONS:**

1. **THAT** Council approve the proposed fee adjustments, as outlined in this report.
2. **THAT** Council authorize the City Solicitor to bring forward the necessary bylaw amendments to implement the proposed adjustments in the Planning and Building Fees Bylaw effective 2022 January 01, as set out in *Attachment #1* and *Appendix A* of this report.

**REPORT**

The *Local Government Act* provides for the imposition of fees and charges for applications and various types of permits and services under Part 14 (Planning and Land Use Management), Division 2 (Responsibilities, Procedures and Authorities), Section 462 (Fees related to applications and inspections) for the purpose of recovering the costs of administration, inspection, advertising and processing. Over the years, fees and charges have been established for a number of processes, works and services including: permits for building construction, including electrical, plumbing and gas inspections; rezoning, strata titling and subdivision of land; and a variety of other Planning and Building services.

In 1997, Council completed a comprehensive review of fees and directed staff to conduct an annual fee review report for each subsequent year to help ensure that fees recover the basic costs of City processes, works and services. The intent of the annual fee review is to establish a more systematic fee increase process and to avoid substantial increases at any one point in time. Under this system, fees are adjusted each year to ensure that the costs associated with each type of application, permit, service, or work is recovered.

Staff have completed the annual review of fees for 2022. *Attachment #1* and *Appendix A* outline the recommended adjustments with the City's projected operating costs, projected property tax rates, and Consumer Price Index (CPI) for 2022 taken into consideration. Using the established

fees as a benchmark, generally the Planning and Building Department's fees are proposed to increase by 3.00% to ensure cost recovery and a median fee position relative to other municipalities in the region with similar processes, services, and development conditions. As described in **Attachment #1**, some proposed fees have been adjusted further to more accurately reflect processing costs, while others have been maintained at current rates.

It is recommended that all fees and bylaw text amendments be introduced and considered for First Reading on 2021 September 27. All fees will be implemented following Final Adoption of the Planning and Building Fees Bylaw and related bylaw amendments, with an earliest effective date of 2022 January 01.

**Review of Fees for 2022 for Planning and Building Permits,  
Applications and Other Services**

**1.0 GENERAL**

It is intended that the structure and schedules for Planning and Building Department fees account for the full range of costs (administration, processing, record keeping, responding to enquiries, inspections, etc.) for each type of application, permit, service, or work. This approach recognizes that these costs are commonly incurred, to varying degrees, by a variety of different departments. For example, while the bulk of the administrative costs for processing a rezoning application may be incurred in the Current Planning Division, considerable staff effort is often expended in the Clerk's Office, Legal Department, Engineering Department, Fire Prevention Office, and Building Department, as well as, to some extent, by the RCMP, the Parks, Recreation and Cultural Services Department, Public Safety and Community Services Department (including Licence, Property Management Office and Realty and Lands Division), and the Tax Office. The degree to which other departments may be involved varies considerably with the type of application and from case to case. The overriding consideration in the *Local Government Act*, which governs fees imposed for planning related services, is that the fee must not exceed the estimated average costs of processing, inspection, advertising and administration for the associated service. The approach taken by the City is to recover the estimated average cost of processing across a wide range of application, permit, service and work types.

*Appendix A* outlines the current and proposed schedules of fees in detail.

**2.0 PLANNING DEPARTMENT FEES**

**2.1 Proposed 2022 Planning Fees (Appendix A, Schedule A to E)**

The proposed Planning Department fees are outlined as follows:

- Rezoning Application Fees (Schedule A)
- Preliminary Plan Approval (PPA) Application Fees (Schedule B)
- Subdivision Application Fees (Schedule C)
- Payment-In-Lieu of Parking (Schedule C-1)
- Liquor Licence Application Fees (Schedule D)
- Environmental Review (ERC) Application Fees (Schedule E)

**2.2 General 3.00% Increase**

Staff have reviewed the existing cost recovery structure of the present fee schedule for rezoning, subdivision, development approvals (PPA), strata titling and various other approval services that are provided by the Planning Department. As outlined in *Appendix A*, an increase of 3.00% is generally proposed for Planning Department fees, with the following exceptions:

### **2.3 Rezoning Fees – Public Hearing and Area Plan Notification Sign (Schedule A)**

The following fees associated with rezoning applications remain sufficient to recover processing time and costs; therefore, no change is proposed for 2022:

- **Public Hearing Fees**

In 2016, first and additional public hearing fees were increased from \$500 to \$1,000. It is recommended that this fee remain at its current rate.

- **Area Plan Notification Sign Fees**

As per Council adopted policy and as a condition of rezoning, applicants are assessed \$250 for the required signage for new multiple family residential projects. It is recommended that this fee remain at its current rate.

### **2.4 Preliminary Plan Approval Application Fees – Temporary COVID-19 Pandemic Reopening Measures (Schedule B)**

As part of the first phase of the COVID-19 pandemic reopening measures, an expedited PPA process was established in 2020 for the review of applications for on-site outdoor seating areas, as well as outdoor display and retail sale areas accessory to commercial and industrial establishments. In addition, Schedule B of the Planning and Building Fees Bylaw was amended to waive the required minimum fee for such PPA applications.

In April 2021, Council adopted the extension of the pandemic reopening measures to institutional, recreational, assembly and educational establishment. As such, PPA Application fees were set out to be further amended to waive the minimum fee for PPA applications to permit the accommodation of temporary accessory buildings, structures, and service trailers in such situations. This remains unchanged as the City continues to support businesses, as well as institutional, recreational, assembly and educational establishments during the COVID-19 reopening process.

### **2.5 Subdivision Fees – Development Cost Charges Instalments (Schedule C)**

The processing fees for development cost charges instalments were first introduced in 2016. Under the *Development Cost Charge (Instalments) Regulation of the Local Government Act*, the City permits the charges to be paid in one-third instalments at the applicant's request.

When applicants request this instalment payment method, the instalment processing fee is collected upfront, which is one flat rate of \$3,000 for all three instalments. This fee remains sufficient to recover processing time and costs; therefore, it is recommended that this installment fee remains at its current flat rate and no change is proposed for 2022.

**2.6 Subdivision Fees – 1% Administration Fee (Schedule C)**

The subdivision administration fee is collected in order to recover the costs associated with processing and reviewing compliance bonds for required works. This fee remains sufficient to recover processing time and costs; therefore, it is recommended that this administration fee, equal to 1% of the estimated compliance bonding, remain at its current rate and no change is proposed for 2022.

**2.7 Payment-in-Lieu of Parking Fee (Schedule C-1)**

The payment-in-lieu of parking program in Burnaby was first established by Council in 1982. The purpose of this program was to support developments where parking provisions were restricted, and to assist the City in acquiring and developing public parking facilities within the Metrotown area. In 1993, this program was expanded to include non-residential uses in the C8 and C8a Urban Village Commercial Districts on Hastings Street. The purpose of this program was to offset the impact of provincially mandated high occupancy vehicle (HOV) lanes on Hastings Street by providing additional parking opportunities, and to improve viability of commercial developments along Hastings Street through the City’s acquisition of properties for public parking facilities within the Burnaby Heights neighbourhood. In May 2018, Council adopted an amendment to the Zoning Bylaw to expand payment-in-lieu of parking to include all commercial uses within Metrotown, as well as the Edmonds, Lougheed, and Brentwood Town Centres.

In May 2021, Council adopted a number of amendments to the Zoning Bylaw in order to further expand this program to all off-street parking spaces, except those that are provided for dwelling units. Under this latest amendments, new Schedule C-1 is being added to the Planning and Building Fees Bylaw to include the “Payment-In-Lieu of Parking” in the amount of \$25,000 per off-street parking space that is not provided, under the amended payment-in-lieu of parking program. Staff will monitor and evaluate if further fee adjustments are required in future fee reviews.

**2.8 Environmental Review (ERC) Fees – Application Fee (Schedule E)**

The environmental review (ERC) fees were first introduced in 2019 in order to recuperate processing costs and staff time required for the application review.

Currently, a flat rate of \$600 is charged for single- and two-family developments and \$1,200 is charged for other new developments. These fees remain sufficient to recover staff and processing time and costs; therefore, no change is proposed for 2022.

All Planning Department fees have been rounded to the nearest dollar, with the exception of the Preliminary Plan Approval “on construction value” fee and review of preliminary or modified drawings and specifications fee (Schedule B), which has been rounded to the nearest \$0.05.

### **3.0 BUILDING DEPARTMENT FEES**

#### **3.1 Proposed 2022 Building Fees (Appendix A, Schedule F to J)**

The proposed Building Department fees are outlined as follows:

- Building Permit and Inspection Fees (Schedule F)
  - Refund of Fees
  - Damage Deposits and Inspection Fees
- Electrical Permit and Inspection Fees (Schedule G)
- Gas Permit and Inspection Fees (Schedule H)
- Plumbing Permit and Inspection Fees (Schedule I)
- Tree Permit Fees (Schedule J)

#### **3.2 General 3.00% Increase**

A fee increase of 3.00% is proposed for Building Department fees, with the following exceptions:

#### **3.3 Building Permit and Inspection Fees (Schedule F)**

- **Damage Deposit and Inspection Fees**

Public works damage deposit and inspection fees are collected by the City’s Engineering Department and the pre- and post-construction inspections of adjacent City property are carried out by Engineering Inspectors. However, damage deposit amounts and related inspection fees are listed in the Building Bylaw as they relate to construction activity associated with building permits. The Engineering Department proposes the following in respect to damage deposits and inspection fees:

- **Damage Deposit Fees** – Damage deposit fees were significantly increased in 2016 to ensure remediation is completed quickly and appropriately, and due to this previous increase, no change is proposed for 2022.
- **Inspection and Reinspection Fees** – The Engineering Department performs a minimum of two inspections; pre and post for demolitions and constructions. The current inspection and reinspection fees charged do not adequately reflect the cost of providing these services as it typically only covers the cost of one inspection while the City has to perform a minimum of two inspections. The City has made annual inflationary adjustments in previous years but these adjustments have not closed the gap between the fees collected and the cost of delivering the service. In order to ensure cost recovery and to align our fees to be comparable to other municipalities in the region, the Engineering Department proposes doubling the inspection and reinspection fees because the previous rate only covers the cost of one inspection whereas a minimum of two inspections are required.

Fee increases for the Building Department have been rounded to the nearest \$0.05, with the exception of the per kVA fees for electrical permits, which have not been rounded, and the following fees, which have been rounded to the nearest \$1.00: reinspection fees, minimum non-refundable amounts on Building Permits, Damage Deposits related fees, and Tree Permit fees.

#### **4.0 PLANNING AND BUILDING FILE RESEARCH AND RECORDS FEES**

##### ***4.1 Proposed 2022 File Research, Archives and Records Fees (Appendix A, Schedule K)***

The proposed file research and records fees used by both the Planning and Building departments are outlined as follows:

- Land Title Search
- Legal Agreement Amendment
- Comfort Letter
- Copies of Departmental Records or Drawings

##### ***4.2 General 3.00% Increase***

A fee increase of 3.00% is proposed for the Planning and Building file research and records fees, with the following exceptions:

##### ***4.3 Land Title Search Fees (Schedule K)***

- **Land Title Search & Land Title Document and Plan Image Records**

The Land Title search fee (\$15.00 per search) and Land Title Document and Plan Image records fee (\$20.00 per search) were first introduced in 2015. These fees remain sufficient to recover the cost of land title related searches; therefore, no change is proposed for 2022.

##### ***4.4 Legal Agreement Amendment Fees (Schedule K)***

- **Amendments to existing legal agreements already registered at Land Title Office**

The amendment fees were first introduced in 2019 to cover administrative costs for processing amendments requested by applicants to covenant and/or statutory rights-of-ways documents due to changes to construction.

Currently, a flat rate of \$600 is charged for the first 3 amendment items and \$1,000 for when there are more than 3 amendment items. These fees remain sufficient to recover staff and processing time and costs; therefore, no change is proposed for 2022.

All Planning and Building File Research and Records fees have been rounded to the nearest dollar, with the exception of the electronic and paper copies of Departmental records or drawings, which has been rounded to the nearest \$0.05.
