

Summary Report for CPAC District 3 for September and October, 2021

- St Thomas Moore School students help to fill the gap of Language barrier for a Mandarin speaking lady who was in need.
- CPAC 3 is recruiting volunteers from the business community and youth representation.
- Jacquie Tonello, Coordinator of Property from the City attended as a guest to our Sept meeting.
- We had a conversation on the waiting time of Emergency and Non-Emergency line as well as the service provided. There are lots of concern and frustrations expressed for the timely manner of the 911 and nonemergency lines. One member related to a very recent 911 call, it was about 5 minutes wait time but the service was delayed to over two hours.
- A member commented on the help and fast service of the Engineering Department of the City for cleaning the catch basins and drains from the overflowing rain and leaves. Thank you.
