The proposed application aligns with the following goals and sub-goals of the Corporate Strategic Plan:

A Connected Community

- Social connection - Enhance social connections throughout Burnaby.
- Partnership – Work collaboratively with businesses, educational institutions, associations, other communities, and governments.

An Inclusive Community

- Create a sense of community - Provide opportunities that encourage and welcome all community members and create a sense of belonging.

A Healthy Community

- Lifelong learning - Improve upon and develop programs and services that enable ongoing learning.

3.0 BACKGROUND AND NEIGHBOURHOOD CHARACTERISTICS

The subject site is owned by the Jubilee Multi-Generational Housing Society and is located at the northeast corner of the Kalyk Avenue cul-de-sac (see *attached* Sketch #1). The proposed site is currently improved with the Finnish Manor care home, which was constructed in 1974. Vehicular access to the site is provided from Kalyk Avenue and the lane.

Directly to the west is the Ismaili Centre, to the north across Canada Way is the Carlton Lodge care home, and to the east is an office development within the Discovery Place Community Plan area. To the south across the lane are single-family dwellings zoned R5 Residential District.

The subject site is located within the Broadview Community Plan area (see *attached* Sketch #2) and is designated for community institutional uses, including seniors housing. The recommended P5 Community Institutional District, RM3r Multiple Family Residential District, and C1 Neighbourhood Commercial District zoning for the site is consistent with the site's community institutional development designation.

4.0 GENERAL INFORMATION

- 4.1 The applicant is requesting rezoning to the CD Comprehensive Development District (based on P5 Community Institutional, RM3r Multiple Family Residential, and C1 Neighbourhood Commercial Districts) in order to permit the construction of a new campus of care. The proposed redevelopment is comprised of an increase in long term residential care beds and new seniors' supportive housing units (approximately 43% of which would be offered at non-market rates), in addition to a child care facility, hair salon, medical clinic, and pharmacy. Although a suitable plan of development has yet to be determined, the subject site could achieve a maximum development density of 1.90 Floor Area Ratio (FAR).
- 4.2 Finish Manor currently consists of 48 supportive housing units, of which 10 are currently occupied, and 60 residential care beds. The applicant is working with the Fraser Health Authority to relocate all remaining tenants prior to Final Adoption to appropriate alternative housing.
- 4.3 The Director Engineering will be requested to provide an estimate for any additional services necessary to serve this site.

- 4.4 The granting of any necessary statutory rights-of-way, easements, and covenants for the site will be required.
- 4.5 The proposed prerequisite conditions to the rezoning will be included in a future report.

5.0 RECOMMENDATION

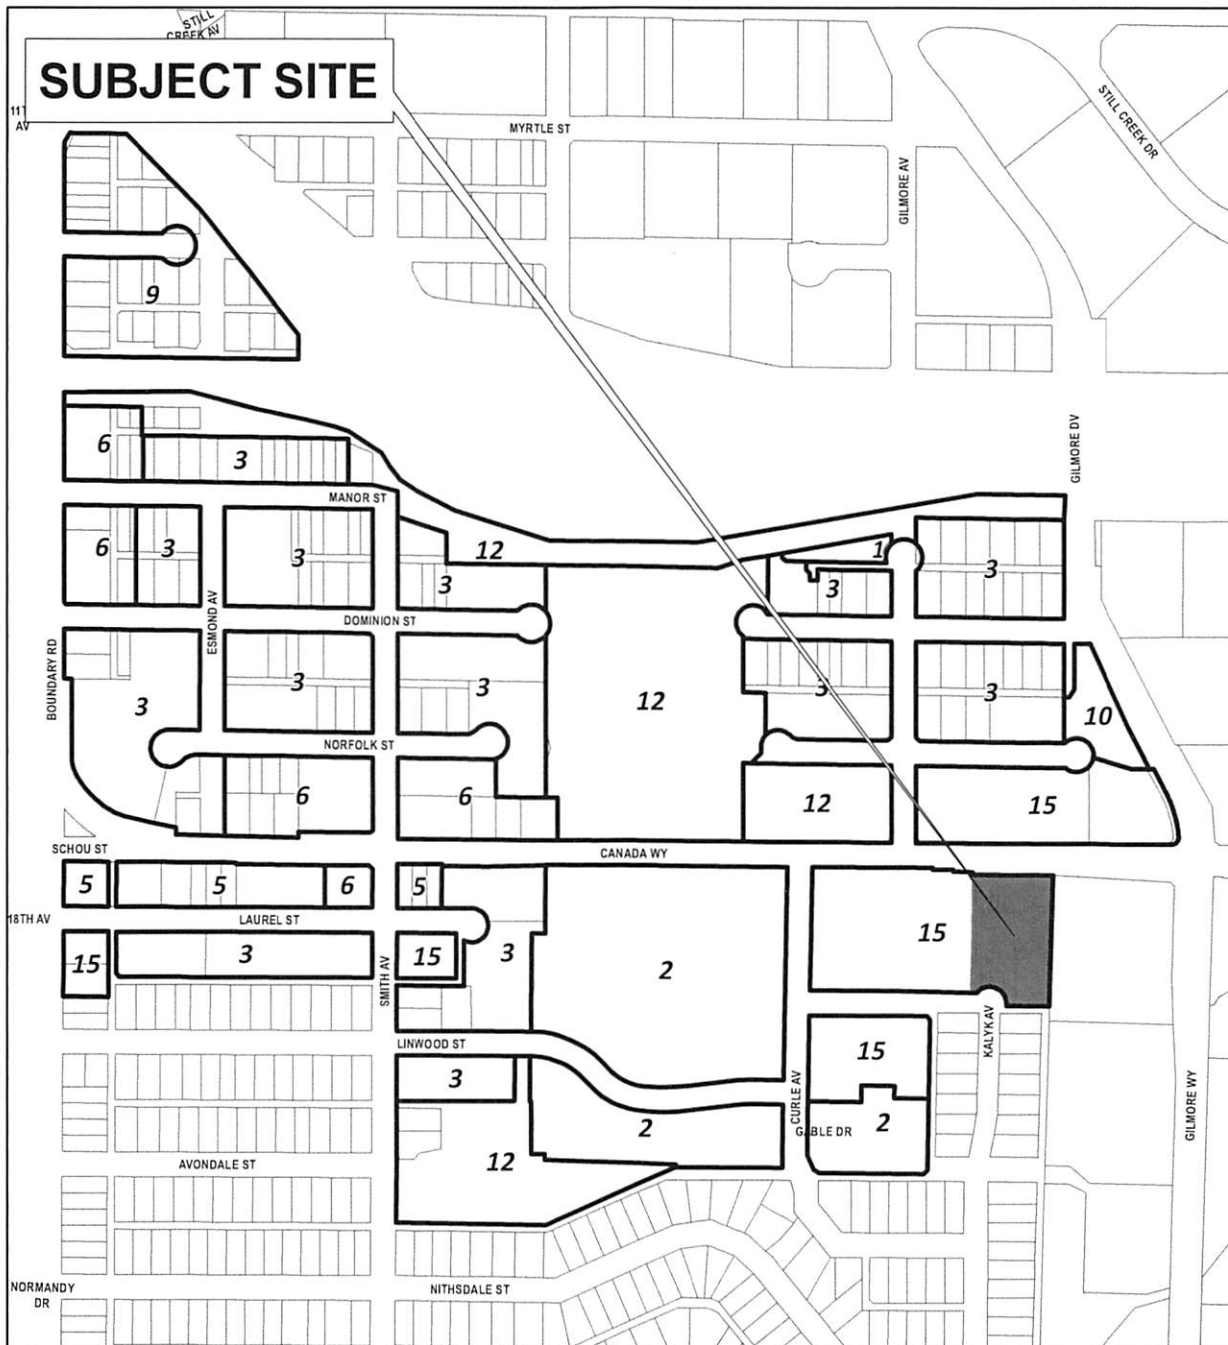

THAT the Planning and Building Department be authorized to continue to work with the applicant towards the preparation of a suitable plan of development for presentation to a Public Hearing on the understanding that a more detailed report will be submitted at a later date.
