Submission

The 2023 Burnaby School District plan states in relation to Bainbridge Village:

"However,

the development bisects Lougheed Highway which is a physical barrier without a pedestrian raised walkway near the Bainbridge Avenue intersection to Lougheed Highway."

Reference: <https://burnabyschools.ca/wp-content/uploads/2023/05/Burnaby-Schools-LRFP.pdf> page 47.

The plan for the neighborhood does not appear to allow for space to build a raised walkway across Lougheed Highway as discussed in the school board plan.

Last year, my child and I were nearly run over by a Fortis BC contractor while crossing Bainbridge and Lougheed. The contractor drove a company pickup through a red light without stopping to turn right onto Bainbridge to get to the liquor store on a Friday afternoon. With ever increasing vehicle heights blocking sightlines, it's difficult for drivers to see children (or even 6ft tall adults) crossing Lougheed. The school board plan makes sense as it helps protect our children's safety as they cross the road to get to school, and the development plan should leave enough space for this to happen.
