Attn: Commission Secretary

Hello Dear Commissioners,

I would like to see the parks and recreation building some labyrinths in the parks, whether made with floral arrangement or just using some concrete slabs. As I research, I see labyrinths of different designs in tourist haunts and in different cultures. It is symbolic yet powerful.

People can make use of a transcendental space to enhance mental wellness, in fact, people need a meditative space to walk and reflect.

I would like to see a feasibility study by city staff to identify locations in city parks, so that more people can enjoy an extra, spiritual dimension in visiting the parks.

Thank you for your attention.

Regards,

Albert Tsui Yuen Ming
