3. **DELEGATIONS AND PRESENTATIONS**

3.1 **UniverCity Community Association - Re: UniverCity Community Amenities Speaker: Maio Giusado, President**

Mario Giusado, President, UniverCity Community Association, appeared before Council in response to Item 8.6. - the Parks, Recreation and Culture Commission – Re: UniverCity Community Amenities Update. The speaker noted that Community Amenities Agreement made between SFU and the City was for SFU to allow community access to its amenities within its excess capacity; however, SFU has insufficient excess capacity to meet community needs, amenities are not designed for the general public, and do not meet the needs of children, the elderly, newcomers, etc. In addition, it was noted that the City relies on charity partners to deliver key community services, and they need full-day free access to community space for it to be financially viable for them to operate.

Mr. Giusado advised that the following is also needed at the UniverCity:

- additional dedicated full-time community space;
- short term: a 3-year pilot of a community resource centre operating out of retail space leased by the City, to be operated by a non-profit operator;
- long term: if the pilot project is successful, transition to a permanent community resource centre by purchasing or negotiating long-term lease of space.

The speaker further advised that residents are seeking dog off-leash amenity, including a fenced area that is accessible year-round.

The General Manager Parks, Recreation and Culture advised that staff will continue working with SFU and the Association to have fulsome discussions, and implement community amenities agreements.

4. PROCLAMATIONS

Robin Prest, SFU Centre for Dialogue, provided a PowerPoint presentation summarizing the report. The speaker advised that the Citizens' Assembly on Livable and Resilient Neighbourhoods will support the development of Burnaby 2050 by: augmenting the existing OCP engagement process; reaching a representative group of Burnaby residents, including under-heard voices; modeling dialogue and evidence-based deliberation for the Burnaby community; and providing actionable recommendations that fit within the constraints faced by Council.

Mr. Prest further provided information on the Civic Lottery and selection criteria; options for Council engagement with Assembly; and City response to Assembly recommendations.
