Re: proposed amendment to "Burnaby Zoning Bylaw 1965"  
- Sunset Kincaid Non-Market Seniors Housing

It is vital to conserve green space one block west of Norland Ave, on Kincaid St. for the physical and mental well-being sake of seniors and all, esp. for Carl Mortensen residents + walkers. It would be jeopardy if the nature is upset or tree clearing.

Certainly you are aware and able to make an appropriate resolution in agreement to protecting a green space, not to be lost to another development. Wouldn't it be economical to, instead, here, of planting trees, to conserve the trees there. Perhaps build more seniors housing at other locations. To enhance walks + views + the God-given nature that is so beautiful for those around Kincaid St. area, your favorable regard.

Respectfully submitted,

*Patricia Perrin*
