- a. British Columbia and UBCM agree to work in collaboration with Canada to develop a joint communications approach to ensure visibility for the program, the provision of upfront project information and planned communications activities throughout the year.

Canada will provide a “Communications Approach” template to be completed by British Columbia and UBCM. This approach will then be reviewed and approved by Canada as well as British Columbia and UBCM.

This joint communications approach will have the objective of ensuring that proactive communications activities are undertaken each year to communicate the annual allocations and key projects, as identified in the communications approach, located in both large and small communities by using a wide range of communications tools to ensure local visibility.

To accomplish this, Canada, British Columbia and UBCM agree to establish a communications subcommittee that will meet biannually. This committee will review and approve a communications plan at the beginning of each year.

- b. Canada, British Columbia and UBCM will work together on the initial annual joint communications approach, which will be finalized and approved by Canada's Co-Chair and British Columbia and UBCM agree that achievements under the joint communications approaches will be reported to the

Oversight Committee once a year.

- c. Through the communications subcommittee, British Columbia and UBCM agree to assess, with Canada, the effectiveness of communications approaches on an annual basis and, as required, update and modify the joint communications approach, as required. Any modifications will be brought to Canada's Co-Chair, British Columbia's Co-Chair and UBCM's Co-Chair, as appropriate for approval.

The Canada wordmark or digital sign must link to Canada’s website, at www.infrastructure.gc.ca. The guidelines for how this recognition is to appear and language requirements are published on Canada’s website, at <http://www.infrastructure.gc.ca/pub/signage-panneaux/intro-eng.html>.

10. Project signage

- 10.1 Unless otherwise approved by Canada, British Columbia, UBCM or Ultimate Recipients will install a federal sign to recognize federal funding at Eligible Project site(s). Federal sign design, content, and installation guidelines will be provided by Canada and included in the joint communications approach.
- 10.2 Where British Columbia, UBCM or an Ultimate Recipient decides to install a sign, a permanent plaque or other suitable marker recognizing their contribution with respect to an Eligible Project, it must recognize the federal contribution to the Eligible Project(s) and be approved by Canada.
- 10.3 British Columbia, UBCM or the Ultimate Recipient is responsible for the production and installation of Eligible Project signage, or as otherwise agreed upon.
- 10.4 British Columbia and UBCM to inform Canada of signage installations on a basis mutually agreed upon in the joint communications approaches.

11. Communication Costs

- 11.1 The eligibility of costs related to communication activities that provide public information on this Administrative Agreement will be subject to Schedule C (Eligible and Ineligible Expenditures).

SCHEDULE F – Asset Management

Canada, British Columbia and UBCM agree that the measures contained in the Previous Agreements to create and foster a culture of asset management planning were effective in increasing the capacity of the diverse range of Ultimate Recipients in British Columbia and UBCM to enhance their community's sustainability.

Under the previous Agreement (2014-2024), local governments in BC demonstrated a commitment to improving asset management practices within their respective communities. As awareness and knowledge has grown, asset management practices and culture has matured. However, as noted in the *2022 Status of Asset Management in BC Report*, while moving in the right direction, there remains significant gaps and priority areas where local governments need to improve if they are to realize the full benefits of asset management.

Using the results from the *2022 Status of Asset Management in BC Report* as a guide, the Oversight Committee will develop and approve Asset Management Commitments, over the duration of this Agreement for ultimate recipients, consistent with the Asset Management for Sustainable Service Delivery: A BC Framework. Asset Management BC will be asked to provide expertise and input where appropriate.

All Ultimate Recipients will be required to meet the Asset Management Commitments. Asset Management Commitments may vary depending on whether the Ultimate Recipient is; a Local Government, a non-local government entity, Translink, and/or BC Transit. Asset Management Commitments will focus on strengthening asset management capacity over the term of the Agreement while continuing to recognize the varying capacities of Ultimate Recipients and the range of ongoing asset management activities.

The Oversight Committee will consider Asset Management Commitments under the following areas;

- Reporting on continuous improvement of Asset Management practices over the duration of the Agreement, including reporting through the Ministry of Municipal Affairs Local Government Data Entry (LGDE) System,
- Development and implementation of Long-term Financial Plans
- Ongoing Asset Management education and training, and
- Implementing asset management performance measurement.

SCHEDULE G – Housing Report

1. Housing Needs Assessments

- 1.1 By March 31, 2025, or as otherwise agreed upon by Canada and British Columbia, municipalities with a 2021 Census population of 30,000 or more are required to complete and make available to Canada a Housing Needs Assessment (HNA) prepared in accordance with provincial legislation and additional details provided, as agreed to by Canada and British Columbia, which together align with the information requirements, spirit and intent of the federal Housing Needs Assessment template and the guidance document.
- 1.2 HNAs should be used by British Columbia and UBCM in preparing the Project-Level Housing Report and the Housing Narrative in the CCBF Outcomes Report in order to identify housing pressures related to infrastructure. HNAs should also be used by municipalities to prioritize infrastructure projects that support increased housing supply where it makes sense to do so.
- 1.3 HNAs must be made publicly available on the municipal website and municipalities are to provide links to the page where the HNAs are posted to Canada for all Ultimate Recipients in their jurisdiction that have a 2021 Census population of 30,000 or more.
- 1.4 A separate HNA Guidance Document has been provided by Canada.

2. Project-Level Housing Report

By September 30 of each year, starting in 2025, British Columbia and UBCM will provide Canada a Housing Report in an electronic format deemed acceptable by Canada consisting of the following:

2.1 Methodology

British Columbia and UBCM will provide a description of the process used to collect data and information presented in the Housing Report. The methodology section should include the following information:

- Scope of the report and related rationale.
- Reporting process used to collect data from Ultimate Recipients.
- Identification of baseline data and other data sets used for the purposes of the report and which data has been excluded.
- How performance indicators were assessed in British Columbia.

2.2 Municipalities Identified for Project-Level Reporting

Criteria for Project-Level Reporting

Municipalities with a population of 30,000 or more, outside of the Metro Vancouver Region, that have housing pressures that can be addressed through closing infrastructure gaps or building capacity where it makes sense to do so, must:

- be included in Table 1 (below); and,
- provide project-level data on housing requirements to British Columbia and UBCM, for inclusion in the Housing Report that will be submitted by British Columbia and UBCM to Canada.

HNA and project-level reporting requirements can also be applied to other municipalities as agreed to by Canada, British Columbia and UBCM. Municipalities that do not meet these criteria may additionally be included at the discretion of British Columbia and UBCM, but are not required by Canada to include project-level data in the annual Housing Report.

British Columbia and UBCM will be expected to summarize project-level information from the municipalities identified by the above criteria to report to Canada annually.

The following table (**Table 1**) is to be used as a template to identify municipalities required to provide project-level reporting and to identify housing pressures related to infrastructure needs. Housing pressures should be consistent with needs and pressures identified by Ultimate Recipients in their HNAs. British Columbia and UBCM will provide an aggregate of this table to Canada in their annual Housing Report.

Ultimate Recipient	Project Level Reporting Criteria	Key Infrastructure-Related Housing Pressures
<i>Name of the municipality</i>	<i>Identify which criteria as noted above applies</i>	<i>Identify key housing gaps and needs that are related to infrastructure</i>

Table 1: Ultimate Recipients Identified for Project Level Reporting

2.3 Project-Level Housing Outcomes

For municipalities required to provide project-level reporting, British Columbia and UBCM are required to collect project-level data on housing outcomes and to complete the table below (Table 2) on an annual basis.

Table 2 is intended to link the housing pressures identified in Table 1 and in HNAs with outcomes supported by CCBF projects that can help Ultimate Recipients to address their specific housing pressures. More specifically, Table 2 is to be completed by Ultimate Recipients outlined in Section 1.2. It will include a subset of the projects from the above project list and this subset represents projects with housing outcomes.

Project ID	Ultimate Recipient	Project Title	Project Description	Investment Category	Housing Outcomes and Indicators
<i>As provided in program reporting (Schedule D)</i>	<i>As provided in Table 1</i>	<i>As provided in program reporting (Schedule D)</i>	<i>Provide a brief description of the project</i>	<i>Indicate which CCBF category the project falls under</i>	<i>Identify key housing outcomes and indicators (section 2.3) that will be used to measure success.</i>

Table 2: Project-Level Reporting on Housing Outcomes

2.3.1 Housing Outcome Indicators

For each of the projects listed in Table 2, British Columbia and UBCM shall report on the following core indicators, as relevant to each investment category.

- # of housing units supported or preserved; and
- # of affordable housing units supported or preserved.

Units enabled is a measure of increased capacity for potential housing development as a result of the infrastructure investment made and, in some cases, where CCBF funding contributed directly to housing development (e.g., building social housing as part of brownfield remediation category, may include new units directly supported by CCBF funding).

3. Housing Narrative in the CCBF Outcomes Report

By March 31st each year, starting in 2026, British Columbia and UBCM shall provide Canada with a narrative report on program-level housing outcomes. This narrative report will be aligned with and incorporated into the annual CCBF Outcomes Report.

The housing narrative should outline how CCBF has supported housing supply and affordability pressures within British Columbia and UBCM's jurisdiction, over the reporting period, and measures taken between British Columbia, UBCM and Ultimate Recipients to improve housing supply and improve housing affordability for Canadians. It should also align with identified needs within Ultimate Recipients Housing Needs Assessments once they have been developed.

Further, British Columbia and UBCM must include in their Outcomes Report a narrative assessment of measures they have taken to improve housing outcomes through CCBF funded infrastructure projects. This should include:

- How Ultimate Recipients have prioritized specific infrastructure investments, where it made sense to do so, that support an increased supply of housing (e.g., upgrading pipes to support densification rather than sprawl, or remediating a brownfield site that could then be used for affordable housing);
- How Ultimate Recipients are utilizing CCBF funding to build local capacity for sound land use and development planning (e.g., through the capacity building category).
- Any measures taken to preserve and/or increase supply and mix of affordable housing (e.g., minimizing displacement, making land available for non-market housing, minimum affordability requirements for private developers); and

This housing narrative must also include responses to the following questions:

- How many or what percentage of projects from the total CCBF project list contribute to an increase in housing supply and how many housing units were supported or preserved (as outlined in 2.3.1)?
- What percentage of total housing units supported or preserved are affordable?
- How many communities have published a new Housing Needs Assessment or an updated one within the last 5 years?

For further information and details on the housing narrative portion of the Outcomes Report please refer to the Housing Report Template and Guidance document.

4. Assessment of the Housing Reports and Compliance

4.1 Assessment of Housing Reports

Both the project-level housing report and the housing narrative on program-level housing outcomes will be assessed against the Government of Canada's Evaluation Framework as well as HNAs.

4.2 Compliance

Failure by British Columbia, UBCM or its Ultimate Recipient to adhere to this Schedule may affect the timing and flow of any CCBF funding that may be transferred by Canada. Repeated or sustained failures to comply with the terms of this Schedule could result in downward adjustment of allocations for British Columbia, UBCM or Ultimate Recipient for future Infrastructure Canada programs.
