More play
spaces

KEY TAKEAWAYS FROM WHAT WE HEARD

EXISTING CHARACTER

A large, advantageously flat area with potential for new programming associated with the adjacent recreational centre and school. Opportunity to simplify and improve legibility around Central Boulevard and Imperial Street intersection.

EMERGING VISION

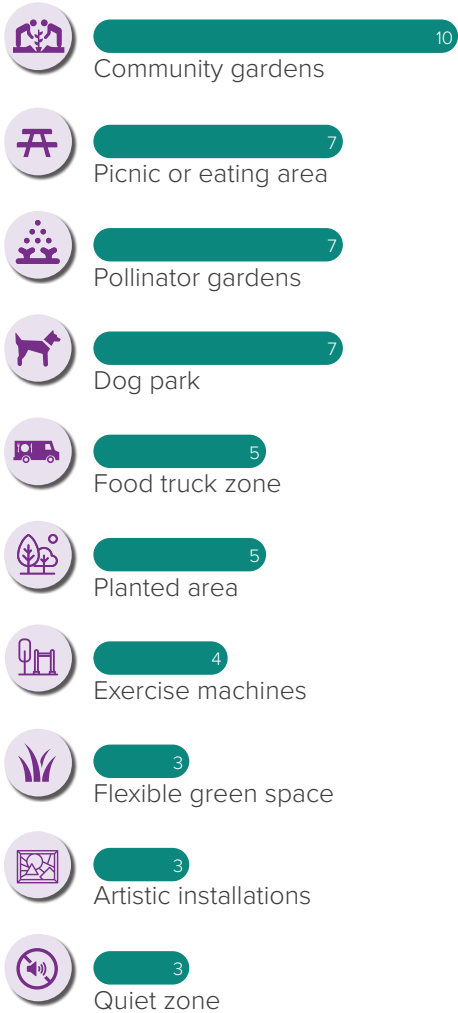

A myriad of formalized recreational opportunities across age groups;
Associated with the Bonsor Recreation Complex and Maywood Elementary School;
Colourful and vibrant, safe and inviting.

community
gardens

More lighting

Integrate
with adjacent
businesses

KEY TAKEAWAYS FROM WHAT WE HEARD

EXISTING CHARACTER

Mature trees and sunny green space in a lower density residential area give this area a more relaxing and community feel. There are pockets where safety is a concern, that need addressing. Conversely, there are special gathering spots such as by La Forêt Café that can be celebrated.

EMERGING VISION

A welcoming place for relaxing and family gathering;
Lush and green in character, supporting food production and pollinator habitats;
Integrated with an intimate village plaza near the Royal Oak SkyTrain Station, complementary with the future Community Village plans.

05 What's Next

The results from this round of engagement will be used towards the development of:

1. **Guiding principles** for the Framework Plan;
2. **Character areas** along the Parkway that will help define areas with a distinct look and feel;
3. **A programmatic layout** for the parkway corridor that identifies activities, landscape typologies and built interventions; and
4. **A corridor-wide amenities strategy** to support environmental, safety, accessibility, cultural and social goals for the Parkway.

We will reach back out to the community in the fall of 2024 through an in-person open house event and online community survey to gain feedback on the Draft Framework Plan for the corridor. Don't forget to participate in our summer temporary activation programming, with live music and events.

Look out for further details on opportunities to participate on our project website: **Burnaby.ca/BCParkway**

The goal is to complete the Final Framework Plan by the end of this year to start implementation in 2025.
